2. Introduction

A) **Company History**

GREENAPPLE
Green Approach to combat
hydrocarbon pollution

GREEN APPLE ENVIRONMENTAL TECHNOLOGIES

Green Apple Environmental Technologies is a rapidly growing Environmental technology firm. The Company's vision is to provide innovative treatment solutions for problems related to Water and Land Pollution. The product endows with environmental remediation solutions to municipalities, Industrial commercial end users, and consulting engineers. The products of Green Apple Environmental Technologies are a dedication to innovation in Storm Water, marine , aviation and spill remediation.

Typical sales activities are directed to urban storm-water management districts, civil and environmental consulting firms, marine and aviation centres, industrial manufacturing units, road and rail distribution entities, fuel handling and distribution centres.

Green Apple Environmental Technologies works exclusively to combat Hydrocarbon Pollution and Oils Spill Containment in Water and on ground regions.

The apparition of the firm is to provide a complete, professional and timely service to our clients covering all aspects of hydrocarbon pollution response and safety services in a practical, efficient and cost-effective manner.

The key to effective response lies in the expertise of people to solve problems and understanding the issues surrounding oil spills and the preparation of equipment. We pride ourselves on the quality of our people and the reliability of our product to meet response needs.

Green Apple Environmental Technologies is the exclusive dealer and is associated with various United States based companies in promoting the latest technologies for Hydrocarbon pollution.

KEY ELEMENTS OF EMERGENCY OIL SPILL RESPONSE: Green Apple Environmental Technologies provides services for oil spill incidents at both onshore and offshore locations. Our unique set of skills and capabilities allows us to offer you turnkey solutions to your environmental problems.

Our services include:

- Conducting Oil Spill Preparedness Audits and Oil Spill Risk Assessments to evaluate your equipment, your response capability, and your maintenance regime. In addition to identifying your particular requirements, we also provide our product RAMSORB for oil spill containment.
- ProvisionofReliefTeamsforAccidentalOilsSpillsandTrainingProgramme.
- Responds to Marine Oils Spills and Land Based Spills.

Our products Include:

- Green Apple Environmental Technologies Supplies the following products Worldwide.

Product Line 1: Ramsorb Series (Oil absorbent & Bioremediation)

- Ramsorb-1(A premier oil Absorbent & Bioremediation product on land)
- Ramsorb-1 A(A premier Acid Absorbent & Neutralising Agent)
- Ramsorb-2(a Premier Absorbent for Hydrocarbon Spills on Water)
- Ramsorb-3(A premier Oil Absorbent on Concrete, Asphalt & other hard surfaces)
- Ramsorb-4(A Premium Oil absorbent for stabilizing soil and Sludge treatment)

Product Line-2-Abtech Series (Smart sponge Technology-an Oeliophylic Polymer Technology for Hydrocarbon Pollution)

- Smart Pak
- Tabular Oil absorbent Booms & Line Skimmers
- Passive Skimmers
- Triple Propellet Line Skimmer
- Tabular Booms
- Portable Filtration Unit
- Ultra Urban Filters

B) What the company does

Green Apple Environmental Technologies deal with products specialized in containing Oil Spill in an environmental friendly (*Bioremediation-advancement of bacteriology/biotechnology/Oeliophylic polymer technology*) manner.

Green Apple Environmental Technologies is the only authorized dealer and is in Joint Venture with the US Based Companies promoting the latest technologies for Hydrocarbon pollution, majorily on Oil Spill response of onshore & offshore regions in India & abroad.

3. Strategy

a. Vision statement

Company's Vision is to provide Innovative treatment solutions for problems related to Water & Land Pollution by using Bioremediation & Smart sponge Technology to save the environment in a eco-friendly manner.

b. Mission statement

Our Mission is deliver technology of bioremediation/Oeliophylic Polymer technology in all Indian refineries & treatment of hazardous hydrocarbon across the country.

c. Values

Our company is single-minded in its determination to achieve excellence in all that we do whereby its activities are managed and undertaken ethically, transparently, respecting all applicable laws.
